

TENNESSEE GENERAL ASSEMBLY  
FISCAL REVIEW COMMITTEE

**FISCAL NOTE**

**HB 2572 - SB 2872**

February 25, 2022

**SUMMARY OF BILL:** Entitles law enforcement officers to an additional, automatic one year of creditable service towards retirement for every four years of creditable service earned.

**ESTIMATED FISCAL IMPACT:**

**Increase State Expenditures – \$67,159,200/FY22-23**

**Increase Federal Expenditures – \$22,386,400/FY22-23**

**Increase Local Expenditures – \$538,784,700/FY22-23/Permissive**

**Other Fiscal Impact – The total additional lump sum pension liability to the Tennessee Consolidated Retirement System is estimated to be \$628,080,200.**

**Assumptions:**

- A law enforcement officer is defined as a member of the Tennessee highway patrol, a police officer, a sheriff, or sheriff's deputy employed full time by a municipality or political subdivision in Tennessee, or a police officer, agent, or investigator employed full time by the state of Tennessee.
- For the purposes of this analysis, it is assumed that all active Tennessee Consolidated Retirement System (TCRS) members employed as a law enforcement official would be granted an additional five years of service under the proposed legislation, and therefore, are eligible for an unreduced service retirement.
- Retirement benefits for retired state employees are funded 75 percent with state funds and 25 percent with federal funds.
- Based on information from the Tennessee Consolidated Retirement System (TCRS), the total increase in liability including additional administrative expenditures is estimated to be \$89,545,570 to the pension system relative to eligible state employees.
- Such additional liability will be funded in FY22-23.
- The one-time increase in state expenditures in FY22-23 for state employees is estimated to be \$67,159,178 (\$89,545,570 x 75%).
- The total one-time increase in federal expenditures in FY22-23 for state employees is estimated to be \$22,386,393 (\$89,545,570 x 25%).

**HB 2572 - SB 2872**

- Based on information from TCRS, the total increase in liability to the pension system relative to eligible local government employees is estimated to be \$538,784,650.
- Local governments may choose to adopt a resolution authorizing such additional benefits for local government employees.
- Any permissive increase in local government expenditures for the additional liability is dependent on the number of local governments adopting such resolution and the number of applicable employees within those local governments.
- The permissive increase in local government expenditures would be funded 100 percent by local government in FY22-23.
- The permissive increase in local government expenditures is estimated to be \$538,784,650.

**CERTIFICATION:**

The information contained herein is true and correct to the best of my knowledge.
